Evergrande Center for Immunologic Diseases Symposium on
Immunity and Inflammation in Disease and Tissue

Joseph B. Martin Conference Center Amphitheater
77 Avenue Louis Pasteur, Boston, MA
July 21, 2017

9:00 am: Vijay Kuchroo, DVM, PhD, Director, Evergrande Center – Brigham & Women’s Hospital
Welcome

9:05 am: Evergrande Group
Opening Remarks

9:10 am: Jérôme Galon, PhD, INSERM
Tumor Microenvironment Systems Immunology: A Novel Paradigm for Cancer

9:40 am: Shannon Turley, PhD, Genentech
Stromal Cells in Cancer Immunology and Immunotherapy

10:20 am: Break

10:50 am: Ronald Germain, MD, PhD, National Institutes of Health
Imaging Immunity: Developing a Deep Spatiotemporal Understanding of Host Defense and Immunopathology

11:20 am: Rakesh Jain, PhD, Steele Laboratories, Massachusetts General Hospital
Reprogramming the Tumor Microenvironment to Improve Immunotherapy of Cancer

11:50 am: Fiona Powrie, PhD, Kennedy Institute of Rheumatology, University of Oxford
Inflammation Driven Cancer: Host and Microbial Pathways

12:20 pm: Arlene Sharpe, MD, PhD, Co-Director, Evergrande Center – Harvard Medical School
Concluding Remarks
